FOR IMMEDIATE RELEASE

Coast360 Raises \$19,000 for Sustainability Efforts

Maite, Guam – January 9, 2016 – Part of Coast360’s core mission is to be stewards of the environment. Established in September 2015 as the credit union’s charter day celebration, the eCoast Run is a fun event for the community that focuses on sustainability education and support for the island. Coast360 has raised nearly \$19,000 combined from its first and second eCoast Run events. The proceeds are to be used towards sustainability projects around Guam. A total of \$13,000 was donated to non-profit organizations. The remainder of the proceeds is dedicated to a community beautification project that the credit union plans to unveil in March.

In its second year, the eCoast Run & Family Fair attracted over 1,600 participants. “The success of this year’s event surpassed our expectations and we are thrilled to be able to give to more organizations,” said Gener Deliquina, Chief Executive Officer. “The organizations were selected for their positive impact in the community and their dedication to a cause that is so vital to our island’s future.”

At Coast360 we believe that together, we thrive. It is with that belief that we have chosen the following organizations. Farm to Table aims to create a sustainable farming system for our island by stimulating our local economy and agriculture. Guam Soil and Water Conservation promotes conservation, development and use of soil and water resources to control and prevent soil erosion, flooding and improve agriculture water management. i*recycle Guam assists our island’s recycling efforts and education on greener practices. Funds for i*recycle Guam will be used to purchase new recycle bins for various Department of Education schools. Micronesia Conservation Coalition focuses their efforts towards the conservation of our waters, coastline and sea life. We are proud of the organizations that work to better the environment for the community and all its generations.

Founded in 1962, Coast360 Federal Credit Union is a not-for-profit locally chartered financial cooperative serving over 60,000 members.
